Art Unit: 1648

1. The examiner acknowledges receipt of the preliminary amendment and the supplemental preliminary amendment. Claim 8 has been canceled. Claims 14-21 are pending and under consideration in this office action.

2. The examiner also acknowledges that this application is a continuation of application serial number 08/873,759 which application concerns the nucleic acid sequence encoding the 44/48kd protein. The parent application has been allowed. The instant application concerns the polypeptide which is encoded by the nucleic acid of application serial number 08/873,759. In view of the fact that the issues are similar and have been prosecuted in the parent application, the claims of the instant applicant are free of the prior art.

3. Claims 14-21 are allowed and are renumbered claims 1-8, respectively.

4. The following is an examiner's statement of reasons for allowance: the closest prior art cited (i.e. in the parent application) neither teaches nor suggests the claimed 44/48 kd protein and vaccine.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Papers related to this application may be submitted to Technology Center 1600 by facsimile transmission. Papers should be faxed to Lynette F. Smith, Art Unit 1648 and should be marked "OFFICIAL" for entry into prosecution history or "DRAFT" for consideration by the
